Casual Elegance for a Boca Raton Home

Casual elegance is this home in Boca Raton. This project reflects an upscale home design to meet the client's desires for a sophisticated yet comfortable living space. The design of this home strikes a balance between luxury and functionality, creating an inviting ambience.

Much focus is on an integration of varied textures and materials including stone, wood, painted glass, mosaic tile, wallpaper, and diamond dust to create diversified and dimensional designed spaces. An open, bright, and fluid interior was accomplished with a renovation of floor plan and elimination of walls.

Ceiling soffits with LED lighting and custom built-in cabinetry make this project a contemporary and architectural statement illustrating form and function. The dining room table and crystal chandelier were customized in mixed metal finishes from Il Pezzo. Upholstery includes custom designed leather sectional from NS; dining chairs and occasional chair in living room from Sacarro.

Secondary entertainment area features oversized Swaim swivel chairs from Judith Norman, making a comfortable and multipurpose entertainment area. TV wall is painted glass and wood, adorned with Skakuff crystal sconces. A custom designed bar made by Florense and game table made by Michael O help define this space for casual entertaining.

This project is a contemporary and architectural statement illustrating form and function. The subdued monochromatic palette suggests timeless and elegant classic design, with a color accent of navy blue showcasing the exclusive materials and textures.
